I-1. Civil Society Organizations

1. Are anti-corruption/good governance CSOs legally protected?

100

1a. In law, citizens have a right to form civil society organizations (CSOs) focused on anti-corruption or good governance.

YES | NO

Comments:

There are four anti-corruption associations that are active: The Movement for Quality Government; Transparency International, Israeli branch; Ometz; and Ogen, the whistle-blowers protection association.

References:

The Association Law, 1980.

YES: A YES score is earned when freedom to assemble into groups promoting good governance or anti-corruption is protected by law, regardless of political ideology, religion or objectives. Groups with a history of violence or terrorism (within last ten years) may be banned. Groups sympathetic to or related to banned groups must be allowed if they have no history of violence.

NO: A NO score is earned when any single non-violent group is legally prohibited from organizing to promote good governance or anti-corruption. These groups may include non-violent separatist groups, political parties or religious groups.

1b. In law, anti-corruption/good governance CSOs are free to accept funding from any foreign or domestic sources.

YES | NO

References:

Interview with Barak Calev, head of The Movement for Quality Government. The Association Law, 1980. The Income Tax Order, section 46.

YES: A YES score is earned if anti-corruption/good governance CSOs face no legal or regulatory restrictions to raise or accept funds from any foreign or domestic sources. A YES score may still be earned if funds from groups with a history of violence or terrorism (within last ten years) are banned.

NO: A NO score is earned if there any formal legal or regulatory bans on foreign or domestic funding sources for CSOs focused on anti-corruption or good governance.

1c. In law, anti-corruption/good governance CSOs are required to disclose their sources of funding.

YES | NO

References:
The Association Law, section 36d.

YES: A YES score is earned if anti-corruption/good governance CSOs are required to publicly disclose their sources of funding.

NO: A NO score is earned if no such public disclosure requirement exists.

2. Are good governance/anti-corruption CSOs able to operate freely?

100

2a. In practice, the government does not create barriers to the organization of new anti-corruption/good governance CSOs.

References:
Interview with Susan Tam, the general director Transparency International, Israeli branch. Interview with Barak Calev, head of The Movement for Quality Government.

100: CSOs focused on promoting good governance or anti-corruption can freely organize with little to no interaction with the government, other than voluntary registration.

75:

50: CSOs focused on promoting good governance or anti-corruption must go through formal steps to form, requiring interaction with the state such as licenses or registration. Formation is possible, though there is some burden on the CSO. Some unofficial barriers, such as harassment of minority groups, may occur.

25:

0: Other than pro-government groups, CSOs focused on promoting good governance or anti-corruption are effectively prohibited, either by official requirements or by unofficial means, such as intimidation or fear.

2b. In practice, anti-corruption/good governance CSOs actively engage in the political and policymaking process.

100 | 75 | 50 | 25 | 0

Comments:
Three examples of the influence of the organizations are the following. Associations can submit pleas to the high court because of misbehavior. On several occasions, The Movement for Quality Government has succeeded in turning over legal and political

decisions. The Transparency International general director was a participant in an investigative committee of the Israeli Knesset in August 2005, and is now participant in a parliamentarian lobby against corruption. The prime minister, the president and other senior civil servants participated in a special study day on The Movement for Quality Government in May 2006.

Personal experience.

100: Civil society organizations focused on anti-corruption or good governance are an essential component of the political process. CSOs provide widely valued insights and have political power. Those CSOs play a leading role in shaping public opinion on political matters.

75:

50: Anti-corruption/good governance CSOs are active, but may not be relevant to political decisions or the policymaking process. Those CSOs are willing to articulate opinions on political matters, but have little access to decision makers. They have some influence over public opinion, but considerably less than political figures.

25:

0: Anti-corruption/good governance CSOs are effectively prohibited from engaging in the political process. Those CSOs are unwilling to take positions on political issues. They are not relevant to changes in public opinion.

2c. In practice, no anti-corruption/good governance CSOs have been shut down by the government for their work on corruption-related issues during the study period.

YES | NO

Comments:

There is no documentation of a CSO that has been effectively shut down by the government or forced to cease operations because of its work on corruption-related issues during the study period. As a matter of fact, an association like The Movement for Quality Government is very accepted.

YES: A YES score is earned if there were no CSOs shut down by the government or forced to cease operations because of their work on corruption-related issues during the study period.

NO: A NO score is earned if any CSO has been effectively shut down by the government or forced to cease operations because of its work on corruption-related issues during the study period. The causal relationship between the cessation of operations and the CSO's work may not be explicit, however the burden of proof here is low. If it seems likely that the CSO was forced to cease operations due to its work, then the indicator is scored as a NO. Corruption is defined broadly to include any abuses of power, not just the passing of bribes.

3. Are civil society activists safe when working on corruption issues?

100

3a. In practice, in the past year, no civil society activists working on corruption issues have been imprisoned.

YES | NO

Comments:

No documentation of CSO activists imprisoned relating to their work covering corruption.

YES: A YES score is earned if there were no CSO activists imprisoned related to work covering corruption.

NO: A NO score is earned if any activist was jailed in relation to work covering corruption. The causal relationship between the official charges and the person's work may not be explicit, however the burden of proof here is low. If it seems likely that the p

3b. In practice, in the past year, no civil society activists working on corruption issues have been physically harmed.

YES | NO

Comments:

There were no documented cases of CSO activists covering corruption being assaulted in the specific study period.

YES: A YES score is earned if there were no documented cases of CSO activists covering corruption being assaulted in the specific study period. A YES score can be earned if there was an attack but it was clearly unrelated to the activist's work.

NO: A NO score is earned if there were any documented cases during the study period of assault on an activist who covers corruption. Corruption is defined broadly to include any abuses of power, not just the passing of bribes.

3c. In practice, in the past year, no civil society activists working on corruption issues have been killed.

YES | NO

Comments:

There were no documented cases of CSO activists being killed related to a corruption case in the specific study period.

YES: A YES score is earned if there were no documented cases of CSO activists being killed related to a corruption case in the specific study period.

NO: A NO score is earned if there were any documented cases during the study period where a person was killed related to a corruption trial, scandal or investigation. The relationship between a mysterious death and an individual's history may not be clear, however the burden of proof here is low. If it is reasonable that a person was killed in relation to his or her work on corruption issues, then the indicator is scored as a NO. Corruption is defined broadly to include any abuses of power, not just the passing of bribes.

4. Can citizens organize into trade unions?

88

4a. In law, citizens have a right to organize into trade unions.

YES: A YES score is earned when trade unions are allowed by law, regardless of political ideology, religion or objectives. Groups with a history of violence or terrorism (within last ten years) may be banned. Groups sympathetic to or related to banned groups must be allowed if they have no history of violence.

NO: A NO score is earned when any single non-violent trade union is legally prohibited by the government from organizing.

100: Trade unions are common and are an important part of the political process and political discourse. Trade union organizers have widely understood rights. Trade unions are free from intimidation or violence.

75:

50: Trade unions exist, but are not always relevant to politics or policy debates. Barriers to organizing trade unions exist, such as intimidation at work, or retribution firings. Trade union organizers have some rights, but these may not be commonly known, or are difficult to defend.

25:

0: Trade unions are rare. Significant barriers to organization exist, including direct violence. Rights of union organizers are not widely known, or are ineffective in protecting organizers.

100: Media entities can freely organize with little to no interaction with the government. Media groups have equal access to broadcast bandwidth through a reasonably fair distribution system.

75:

50: Formation of media groups is possible, though there is some burden on the media group including overly complicated registration or licensing requirements. Some unofficial barriers, such as harassment of minority groups, may occur. Division of broadcast bandwidth is widely viewed to be somewhat unfair.

25:

0: Media groups are effectively prohibited, either by official requirements or by unofficial means, such as intimidation or fear. Division of broadcast bandwidth is widely viewed to be used as a political tool.

75:

50: The government, its proxies, or media ownership/distribution groups make some attempts to restrict media coverage of corruption-related issues through unofficial means, such as restricting access by disfavored media outlets, or other short-term consequences. Violent reprisals against media outlets are rare.

25:

0: The government, its proxies, or media ownership/distribution groups actively use illegal methods to restrict reporting of corruption-related issues. This may include harassment, arrests, and threats. Journalists and publishers take a personal risk to report on corruption, and media outlets who commonly report on corruption face long-term consequences or violent reprisals.

50: Existing limits generally represent the full extent to which an individual can directly or indirectly financially support a candidate or political party. However, exceptions and loopholes exist through which individuals can indirectly support candidates or political parties above and beyond those formal limitations. There are few documented or known cases of state or government ministers regularly taking jobs in the private sector that entail directly lobbying or seeking to influence their former government colleagues.

However, there is a problem of the revolving door" in Israel with regard to the ministry of finance. Most of the officials of the ministry leave the ministry after a short period for the private sector. There is no legacy of long-term service in the public sector.

Comments:

The amendment no. 6 (appointments) to the Government Companies law, 1993, led to progress in the control of political appointments. A reduction in political appointments took place also in the civil service, with the exception on Sharon's governments (this is backed up by hard data from the appointments committee of the Government Companies) . We can expect that the low levels of political appointments will return in the current government (Olmert).

NO: A NO score is earned if no such mechanism exists. A NO score is earned if judicial review is vaguely established in law or regulation without formal procedures. Comments:

There is currently no applicable law. However, the High Court of Justice (HJC) has, in recent years has made several related rulings. On September 24, 1997, the HCJ with a make-up of 11 judges, canceled a prior law that regulates the occupation of investment consultancy. In the opinion of the High Court, parts of the law contradict the Basic Law: Freedom of Occupation to a degree which supersedes that required to realize the goal of the law." On October 14, 1999, the HCJ ruled, once again with a make-up of 11 judges, that an article in a law, which contradicted the Basic Law: Human Dignity and Liberty, was null and void. The article in question was article 237a(a) of the Military Judgment Law, that enabled a military policeman to detain a soldier for four days without first bringing him before a judge.

27c. In law, are members of the national legislature subject to criminal proceedings?

YES | NO

Comments:

Although it is possible to investigate and prosecute Parliament members in Israel, it is very difficult. Knesset members have the right of parliamentary immunity, which is intended to enable them to perform their tasks without fear of legal actions. The essential immunity ensures that a Knesset member will not bear criminal or civil responsibility for any act which he/she performs while fulfilling his/her duty, or in order to fulfill a duty. In addition, a Knesset member has immunities relating to searches, detention, criminal hearings and legal proceedings, which are not connected with his/her work as a member of Knesset. Only the Knesset itself has the right to lift immunity in these spheres. In Israel, the parliamentary immunity is extremely broad, and on occasion there have been proposals to limit it.

All members of the committee — including opposition party members — are able to fully participate in the activities of the committee and influence the committee's work to roughly the same extent as any other member of the committee.

Civil servants rarely comment on political debates. Individual judgments are rarely praised or criticized by political figures. Civil servants can bring a case to the courts challenging politically-motivated firings.

38e. In practice, civil servant bonuses constitute only a small fraction of total pay.

100 | 75 | 50 | 25 | 0

Comments:
The answer depends on the definition of bonuses. However, most of the bonuses are not given through a specific or personal decision. Bonuses are given as part of collective agreements. 100 | 75 | 50 | 25 | 0

Comments:

The mechanism is the court for labor/work. It is not exactly an investigative body, but a court that civil servants use to appeal decisions of the State Service Commission. When citizens want to complain about the State Service Commission, they can ask for the State Comptroller's help. It is an independent body that has the authority and capacity to investigate.

References:

100: The independent redress mechanism for the civil service can control the timing and pace of its investigations without any input from the bodies that manage civil servants on a day-to-day basis.

75:

50: The independent civil service redress mechanism can generally decide what to investigate and when but is sometimes subject to pressure from the executive or the bodies that manage civil servants on a day-to-day basis on politically sensitive issues.

25:

0: The civil service redress mechanism must rely on approval from the executive or the bodies that manage civil servants on a day-to-day basis before initiating investigations. Politically sensitive investigations are almost impossible to move forward on.
