Category I. Civil Society, Public Information and Media

I-1. ⁸⁹Civil Society Organizations

1. Are anti-corruption/good governance CSOs legally protected?

100

1a. In law, citizens have a right to form civil society organizations (CSOs) focused on anti-corruption or good governance.

YES | NO

References:

Article 1 of Act II of 1989 on the Right to Association

YES: A YES score is earned when freedom to assemble into groups promoting good governance or anti-corruption is protected by law, regardless of political ideology, religion or objectives. Groups with a history of violence or terrorism (within last ten years) may be banned. Groups sympathetic to or related to banned groups must be allowed if they have no history of violence.

NO: A NO score is earned when any single non-violent group is legally prohibited from organizing to promote good governance or anti-corruption. These groups may include non-violent separatist groups, political parties or religious groups.

1b. In law, anti-corruption/good governance CSOs are free to accept funding from any foreign or domestic sources.

YES | NO

References:

Article 19 of Act II of 1989.

YES: A YES score is earned if anti-corruption/good governance CSOs face no legal or regulatory restrictions to raise or accept funds from any foreign or domestic sources. A YES score may still be earned if funds from groups with a history of violence or terrorism (within last ten years) are banned.

NO: A NO score is earned if there any formal legal or regulatory bans on foreign or domestic funding sources for CSOs focused on anti-corruption or good governance.

1c. In law, anti-corruption/good governance CSOs are required to disclose their sources of funding.

YES | NO

Comments:

Disclosure rules are stricter and more detailed for public benefit organizations.

References:

Art. 20 of Gov. Dec. 224/2000 (XII.19.)

YES: A YES score is earned if anti-corruption/good governance CSOs are required to publicly disclose their sources of funding.

NO: A NO score is earned if no such public disclosure requirement exists.

2. Are good governance/anti-corruption CSOs able to operate freely?

92

2a. In practice, the government does not create barriers to the organization of new anti-corruption/good governance CSOs.

100 | 75 | 50 | 25 | 0

Comments:

K-Monitor is a Hungarian anti-corruption NGO that publishes a website collecting on-line anti-corruption articles. They have been working for two years without any problems to date. The Hungarian Civil Liberties Union focuses on access to information issues. They have filed legal suits against the government and have been in existence for 12 years now.

Own experience as Executive Director of Transparency International Hungary

100: CSOs focused on promoting good governance or anti-corruption can freely organize with little to no interaction with the government, other than voluntary registration.

75:

50: CSOs focused on promoting good governance or anti-corruption must go through formal steps to form, requiring interaction with the state such as licenses or registration. Formation is possible, though there is some burden on the CSO. Some unofficial barriers, such as harassment of minority groups, may occur.

25:

0: Other than pro-government groups, CSOs focused on promoting good governance or anti-corruption are effectively prohibited, either by official requirements or by unofficial means, such as intimidation or fear.

2b. In practice, anti-corruption/good governance CSOs actively engage in the political and policymaking process.

100 | 75 | 50 | 25 | 0

Comments:

The study describes general problems of civil participation, selection of social service partners is not transparent, nor is there any guarantee that public opinion will be taken into account in policy formulation.

100: Civil society organizations focused on anti-corruption or good governance are an essential component of the political process. CSOs provide widely valued insights and have political power. Those CSOs play a leading role in shaping public opinion on political matters.

75:

50: Anti-corruption/good governance CSOs are active, but may not be relevant to political decisions or the policymaking process. Those CSOs are willing to articulate opinions on political matters, but have little access to decision makers. They have some influence over public opinion, but considerably less than political figures.

25:

0: Anti-corruption/good governance CSOs are effectively prohibited from engaging in the political process. Those CSOs are unwilling to take positions on political issues. They are not relevant to changes in public opinion.

2c. In practice, no anti-corruption/good governance CSOs have been shut down by the government for their work on corruption-related issues during the study period.

YES | NO

References:

There are no reports of media or CSOs shut down by government because of their corruption-related work during the study period.

Interview with Balázs Dénes, Chair of Hungarian Civil Liberties Union, August 2008

YES: A YES score is earned if there were no CSOs shut down by the government or forced to cease operations because of their work on corruption-related issues during the study period. YES is a positive score.

NO: A NO score is earned if any CSO has been effectively shut down by the government or forced to cease operations because of its work on corruption-related issues during the study period. The causal relationship between the cessation of operations and the CSO's work may not be explicit, however the burden of proof here is low. If it seems likely that the CSO was forced to cease operations due to its work, then the indicator is scored as a NO. Corruption is defined broadly to include any abuses of power, not just the passing of bribes.

3. Are civil society activists safe when working on corruption issues?

100

3a. In practice, in the past year, no civil society activists working on corruption issues have been imprisoned.

YES | NO

References:

There are no reports of imprisonment of CSO activists because of their work covering corruption.

Interview with Balázs Dénes, Chair of Hungarian Civil Liberties Union, August 2008

YES: A YES score is earned if there were no CSO activists imprisoned because of their work covering corruption. YES is a positive score.

NO: A NO score is earned if any activist was jailed in relation to work covering corruption. The causal relationship between the official charges and the person's work may not be explicit, however the burden of proof here is low. If it seems likely that the person was imprisoned due to his or her work, then the indicator is scored as a NO. Corruption is defined broadly to include any abuses of power, not just the passing of bribes. Imprisoned" is defined here as detention by the government lasting more than 24 hours.

3b. In practice, in the past year, no civil society activists working on corruption issues have been physically harmed.

YES | NO

References:

No such media reports have been published.

Own experience as Executive Director of Transparency International Hungary

Interview with Balázs Dénes, Chair of Hungarian Civil Liberties Union, August 2008

YES: A YES score is earned if there were no documented cases of CSO activists covering corruption being assaulted in the specific study period. A YES score can be earned if there was an attack but it was clearly unrelated to the activist's work. YES is a positive score.

NO: A NO score is earned if there were any documented cases during the study period of assault to an activist who covers corruption. Corruption is defined broadly to include any abuses of power, not just the passing of bribes.

3c. In practice, in the past year, no civil society activists working on corruption issues have been killed.

YES | NO

References:

There are no reports of any CSO activists being killed because of their work on corruption-related issues.

Interview with Balázs Dénes, Chair of Hungarian Civil Liberties Union, August 2008

YES: A YES score is earned if there were no documented cases of CSO activists being killed because of their work covering corruption in the specific study period. YES is a positive score.

NO: A NO score is earned if there were any documented cases during the study period where a person was killed related to a corruption trial, scandal or investigation. The relationship between a mysterious death and an individual's history may not be clear, however the burden of proof here is low. If it is reasonable that a person was killed in relation to his or her work on corruption issues, then the indicator is scored as a NO. Corruption is defined broadly to include any abuses of power, not just the passing of bribes.

4. Can citizens organize into trade unions?

100

4a. In law, citizens have a right to organize into trade unions.

YES | NO

References:

Act XXII of 1992 on Labor

Act II of 1989

YES: A YES score is earned when trade unions are allowed by law, regardless of political ideology, religion or objectives. Groups with a history of violence or terrorism (within last ten years) may be banned. Groups sympathetic to or related to banned groups must be allowed if they have no history of violence.

NO: A NO score is earned when any single non-violent trade union is legally prohibited by the government from organizing.

4b. In practice, citizens are able to organize into trade unions.

100 | 75 | 50 | 25 | 0

References:

<http://www.mszosz.hu> -Federation of Hungarian Trade Unions has 38 member trade unions.
Central Statistical Office: 1059 trade unions were registered in 2006, out of which 911 were active.

100: Trade unions are common and are an important part of the political process and political discourse. Trade union organizers have widely understood rights. Trade unions are free from intimidation or violence.

75:

50: Trade unions exist, but are not always relevant to politics or policy debates. Barriers to organizing trade unions exist, such as intimidation at work, or retribution firings. Trade union organizers have some rights, but these may not be commonly known, or are difficult to defend.

25:

0: Trade unions are rare. Significant barriers to organization exist, including direct violence. Rights of union organizers are not widely known, or are ineffective in protecting organizers.

I-2. Media

5. Are media and free speech protected?

100

5a. In law, freedom of the media is guaranteed.

YES | NO

References:

Art. 61 (2) of the Constitution
Act II of 1986, Press Act

YES: A YES score is earned if freedom of the press is guaranteed in law, including to all political parties, religions, and ideologies.

NO: A NO score is earned if any specific publication relating to government affairs is legally banned, or any general topic is prohibited from publication. Specific restrictions on media regarding privacy or slander are allowed, but not if these amount to legal censorship of a general topic, such as corruption or defense. A NO score is earned if non-government media is prohibited or restricted.

5b. In law, freedom of speech is guaranteed.

YES | NO

References:

Art. 61 (1) of the Constitution

YES: A YES score is earned if freedom of individual speech is guaranteed in law, including to all political parties, religions, and ideologies.

NO: A NO score is earned if any individual speech is legally prohibited, regardless of topic. Specific exceptions for speech linked with a criminal act, such as a prohibition on death threats, are allowed. However, any non-specific prohibition earns a NO score.

6. Are citizens able to form print media entities?

100

6a. In practice, the government does not create barriers to form a print media entity.

100 | 75 | 50 | 25 | 0

References:

Sükösd-Kiss: Corruption risks in Hungary, The National Integrity System Country Study, Part One. Transparency International, 2007.

100: Print media entities can freely organize with little to no interaction with the government. This score may still be earned if groups or individuals with a history of political violence or terrorism (within last ten years) are banned from forming media entities.

75:

50: Formation of print media groups is possible, though there is some burden on the media group including overly complicated registration or licensing requirements. Some unofficial barriers, such as harassment of minority groups, may occur.

25:

0: Print media groups are effectively prohibited, either by official requirements or by unofficial means, such as intimidation or fear.

6b. In law, where a print media license is necessary, there is an appeal mechanism if a license is denied or revoked.

YES | NO

Comments:

If the license is denied, the decision can be challenged in court. If the license is provided, the court can still revise it and if there was any administrative error, it must be corrected – this is an administrative procedure and does not seem to hinder the granting of licenses in practice.

References:

Art. 15 of Act II of 1986

YES: A YES score is earned if there is, in law or in accompanying regulations, a formal process to appeal a denied print media license, including through the courts. A YES score is also earned if no print license is necessary.

NO: A NO score is earned if there is no appeal process for print media licenses.

6c. In practice, where necessary, citizens can obtain a print media license within a reasonable time period.

100: Licenses are not required or can be obtained at minimal cost to the organization. Licenses can be obtained on-line or through the mail.

75:

50: Licenses are required, and impose a financial burden on the organization. Licenses may require a visit to a specific office, such as a regional or national capital.

25:

0: Licenses are required, and impose a major financial burden on the organization. Licensing costs are prohibitive to the organization.

7. Are citizens able to form broadcast (radio and TV) media entities?

63

7a. In practice, the government does not create barriers to form a broadcast (radio and TV) media entity.

100 | 75 | 50 | 25 | 0

Comments:

Licenses can be obtained only if there is an open tender to sell the use of electromagnetic frequencies, which are in the public domain.

References:

Cseh-Sükösd: The strength of the law. Evaluation of the media act. In Médiakutató 2001.

100: Broadcast media entities can freely organize with little to no interaction with the government. Media groups have equal access to broadcast bandwidth through a reasonably fair distribution system. This score may still be earned if groups or individuals with a history of political violence or terrorism (within last ten years) are banned from forming media entities.

75:

50: Formation of broadcast media groups is possible, though there is some burden on the media group including overly complicated registration or licensing requirements. Some unofficial barriers, such as harassment of minority groups, may occur. Division of broadcast bandwidth is widely viewed to be somewhat unfair.

25:

0: Broadcast media groups are effectively prohibited, either by official requirements or by unofficial means, such as intimidation or fear. This score is appropriate if the division of broadcast bandwidth is widely viewed to be used as a political tool.

7b. In law, where a broadcast (radio and TV) media license is necessary, there is an appeal mechanism if a license is denied or revoked.

YES | NO

Comments:

Broadcast media licenses can be obtained through a tender procedure. Bids are evaluated by the National Television and Radio Board. Decisions of the Board can be appealed at Court.

References:

Art. 99 (5) Act I. of 1996

YES: A YES score is earned if there is, in law or in accompanying regulations, a formal process to appeal a denied broadcast media license, including through the courts. A YES score is also earned if no broadcast license is necessary.

NO: A NO score is earned if there is no appeal process for broadcast media licenses.

7c. In practice, where necessary, citizens can obtain a broadcast (radio and TV) media license within a reasonable time period.

7d. In practice, where necessary, citizens can obtain a broadcast (radio and TV) media license at a reasonable cost.

100 | 75 | **50** | 25 | 0

Comments:

8. Can citizens freely use the Internet?

100

8a. In practice, the government does not prevent citizens from accessing content published on-line.

100 | 75 | 50 | 25 | 0

References:

100: The government does not prevent Internet users from accessing online content. While some forms of content may be illegal to download or own (such as child pornography), the government does not manipulate networks to prevent access to this information. This indicator addresses direct government intervention in the transfer of information, not indirect deterrents such as intimidation, surveillance or technical difficulties in countries with poor infrastructure.

75:

50: Internet users are prevented by the government from reaching online content in some cases. Government tactics may include firewalls preventing access to networks in other countries, or manipulating search engine results to exclude politically sensitive topics.

25:

0: Internet users are routinely prevented from accessing online content. Government restrictions are in place at all times for certain topics. Government tactics may include firewalls preventing access to networks in other countries, or manipulating search engine results to exclude politically sensitive topics.

100: The government never removes online information or disables servers due to their political content. All political speech is protected with limited exceptions, such as legitimate intellectual property restrictions; direct calls to violence; or pornography.

75:

50: In some cases, the government restricts political speech by its citizens on the Internet. This is accomplished either directly by controlling servers hosting restricted content, or indirectly through threats or intimidation against the persons posting political content.

25:

0: The government regularly restricts political speech by its citizens on the Internet. This is accomplished either directly by controlling servers hosting the restricted content, or indirectly through threats or intimidation against the persons posting political content.

9. Are the media able to report on corruption?

75

9a. In law, it is legal to report accurate news even if it damages the reputation of a public figure.

YES | NO

Comments:

Practice is not in line with the Constitutional Court Decision. Press freedom is limited by the courts, which have held media organizations liable for accurately quoting individuals whose allegations are later proven to be false. Suing media figures for damages is becoming more and more popular among politicians and other public figures, which has a chilling effect on media independence.

References:

Constitutional Court Decision 36/1994 (VI 24)

YES: A YES score is earned if it is legal to report accurate information on public figures regardless of damage to their reputations. Public figures are defined broadly, including anyone in a position of responsibility in the government or civil service; any political leader; leaders of civil society groups including religious groups, trade unions, or NGOs; leaders or officers of large businesses. A YES score can still be earned if a reckless disregard for the truth (i.e. slander) is prohibited.

NO: A NO score is earned if privacy laws protect any public figures (as defined in the YES coding) from accurate information.

9b. In practice, the government or media owners/distribution groups do not encourage self-censorship of corruption-related stories.

100 | 75 | 50 | 25 | 0

Comments:

Of the respondents who were regular staff members, 65% mentioned that their superiors censored their work while 86% of freelance journalists had had similar experiences, although two thirds of them reported only occasional incidents.

100: The government, its proxies, or media ownership/distribution groups make no attempt to restrict media coverage of corruption-related issues through unofficial means.

75:

50: The government, its proxies, or media ownership/distribution groups make some attempts to restrict media coverage of corruption-related issues through unofficial means, such as restricting access by disfavored media outlets, or other short-term consequences. Violent reprisals against media outlets are rare.

25:

0: The government, its proxies, or media ownership/distribution groups actively use illegal methods to restrict reporting of corruption-related issues. This may include harassment, arrests, and threats. Journalists and publishers take a personal risk to report on corruption, and media outlets who commonly report on corruption face long-term consequences or violent reprisals.

9c. In practice, there is no prior government restraint (pre-publication censoring) on publishing corruption-related stories.

100 | 75 | 50 | 25 | 0

Comments:

The government itself does not require journalists to send their articles for checking the content and does not directly forbid the publication of articles. Top editors, however, normally know what can and cannot be included in a paper, so a kind of self-censorship exists. However my personal experience is that when I was invited to talk about a corruption scandal on TV, by the time I arrived at the studio the journalist literally told me that we got a phone call and we should not have so much emphasis on this issue.”

In cases of major scandals there is political influence on the media, but not by checking the text of articles.

References:

Borbála Tóth: Labor Relations and Media. Analyzing the patterns of labor relations in the media of SEENPM-member countries, Independent Journalism Centre, 2008.

100: The government never prevents publication of controversial corruption-related materials.

75:

50: The government prevents publication of controversial corruption-related material in cases where there is a strong political incentive to suppress the information. This score is appropriate if in countries where illiteracy is high, the government may allow a free print press but censor broadcast media.

25:

0: The government regularly censors material prior to publication, especially politically sensitive or damaging corruption-related material. This score is appropriate even if the government restricts only politically damaging news while allowing favorable coverage.

10. Are the media credible sources of information?

80

10a. In law, print media companies are required to publicly disclose their ownership.

YES | NO

Comments:

The publishing company's name has to be published together with the name of the person responsible for publishing.

References:

Decree of the Ministerial Council 12/1986 (IV 22)

YES: A YES score is earned if print media companies are required by law to publicly disclose all owners of the company.

NO: A NO score is earned if there is no such requirement or if the requirement is optional, only partially applicable, or exempts certain types of entities or agents from being publicly disclosed.

10b. In law, broadcast (radio and TV) media companies are required to publicly disclose their ownership.

YES | NO

Comments:

Disclosure is indirect. Licenses can be obtained through open tenders in which bidders have to include their owners. The winner's owners are published by the National Radio and Television Board.

References:

Act I of 1996

YES: A YES score is earned if broadcast media companies are required by law to publicly disclose all owners of the company.

NO: A NO score is earned if there is no such requirement or if the requirement is optional, only partially applicable, or exempts certain type of entities or agents from being publicly disclosed.

10c. In practice, journalists and editors adhere to strict, professional practices in their reporting.

100 | 75 | **50** | 25 | 0

Comments:

Chief editors and/or owners are influenced by advertisers. After a major corruption scandal of Hungarian Telecom was reported by chief editor journalists of Manager Magazine (a monthly journal) they were fired by the journal's owners. Many local level papers depend highly on their local advertisers, so revealing a corruption issue involving a local company could literally endanger the paper. Some journalists are taken to free car-rides so that they are able to write about cars, but the event takes place in Brasil. Very few papers and journals have code of conduct. the number of good investigative journalists is not more then 50.

100: Editors and journalists at the major media outlets abide by a strict journalistic code of conduct and are unwilling to alter their coverage of a particular issue, event or person in exchange for money, gifts, or other favors or remuneration.

75:

50: Editors and journalists at the major media outlets generally avoid altering coverage in exchange for favors but some exceptions have been noted. Not all newsrooms abide by a formal journalistic code of conduct.

25:

0: Editors and journalists are widely known to sell” favorable or unfavorable coverage in exchange for money, gifts, or other remuneration. The major media outlets do not abide by any formal journalistic code of conduct.

10d. In practice, during the most recent election, political parties or independent candidates received fair media coverage.

References:

Report of the National Television and Radio Board to the Parliament, 2006

100: All political parties and independent candidates have some access to media outlets. Individual media outlets may have biases, but on balance, the national media coverage reflects the interests of the electorate. Media groups generally act as disinterested parties in an election. In places where a government is popular with the public, opposition viewpoints can access the public via media outlets.

75:

50: Major popular media outlets have a persistent bias regarding some parties or independent candidates. Some major parties may be partially excluded from media coverage, or draw more negative coverage. Media sectors may have distinct biases, such as newspapers favoring one party, while radio favors another.

25:

0: The mass media, on balance, have clear preferences in election outcomes and coverage is driven to achieve these goals. Some major parties or independent candidates are excluded or consistently negatively portrayed by mass media. Dissenting political opinions are only found on fringe or elite media outlets, such as Web sites.

All parties and candidates are offered consistent and equivalent rates for campaign advertising on state-owned media outlets.

75:

50: The government generally ensures equal access and fair treatment of all candidates and parties by state-owned media outlets but some exceptions exist. State-owned media may occasionally discriminate against particular parties or candidates

and advertising rates may be confusing or non-transparent.

25:

0: The government uses state-owned media to routinely discriminate against opposition candidates and parties. Advertising space may be denied to opposition candidates and parties or higher rates may be charged.

11. Are journalists safe when investigating corruption?

67

11a. In practice, in the past year, no journalists investigating corruption have been imprisoned.

I-3. Public Access to Information

12. Do citizens have a legal right of access to information?

100

12a. In law, citizens have a right of access to government information and basic government records.

YES | NO

References:

Art. 19 of Act LXIII of 1992

YES: A YES score is earned if there is a formal right to access government documents, including constitutional guarantees. Exceptions can be made for national security reasons or individual privacy, but they should be limited in scope. All other government documents should be available upon a public request.

NO: A NO score is earned if there is no such right.

12b. In law, citizens have a right of appeal if access to a basic government record is denied.

YES | NO

References:

Art. 21 of Act LXIII of 1992

YES: A YES score is earned if there is a formal process of appeal for rejected information requests. A YES score can still be earned if the appeals process involves redress through the courts rather than administrative appeal.

NO: A NO score is earned if there is no such formal process.

12c. In law, there is an established institutional mechanism through which citizens can request government records.

YES | NO

Comments:

Each public institution must have an internal regulation on how to provide information when requested. This regulation has to be available on the website of the institution. Normally they have to register the request and give an answer (either electronically or via mail) within 15 days. If this does not happen the requesting person or organization can turn to the courts. Case law has generally held in favor of public access to information legislation and the courts have required government institutions to make requested data public.

Act LXIII of 1992

YES: A YES score is earned if there is a formal government mechanism/institution through which citizens can access government records available under freedom of information laws. This mechanism could be a government office (or offices within agencies or ministries) or an electronic request system.

NO: A NO score is earned if there is no such formal mechanism or institution.

13. Is the right of access to information effective?

13a. In practice, citizens receive responses to access to information requests within a reasonable time period.

100 | 75 | 50 | 25 | 0

Comments:

The cited study shows that mainly in case of local governments (but also some national institutions) the data requested is delivered with considerable delay or is incomplete, or never delivered at all.

75:

50: Records take around one to two months to obtain. Some additional delays may be experienced. Politically-sensitive information may be withheld without sufficient justification.

25:

0: Records take more than four months to acquire. In some cases, most records may be available sooner, but there may be persistent delays in obtaining politically sensitive records. National security exemptions may be abused to avoid disclosure of government information.

75:

50: Records impose a financial burden on citizens, journalists or CSOs. Retrieving records may require a visit to a specific office, such as a regional or national capital.

25:

0: Retrieving records imposes a major financial burden on citizens. Records costs are prohibitive to most citizens, journalists, or CSOs trying to access this information.

50: The agency/entity acts on appeals quickly but with some exceptions. Some appeals may not be acknowledged, and simple issues may take more than two months to resolve.

25:

0: The agency/entity does not resolve appeals in a timely fashion quickly. Appeals may be unacknowledged for many months and simple issues may take more than three months to resolve.

75:

50: The government usually discloses reasons for denying an information request to the requestor, with some exceptions. The reasons may be vague or difficult to obtain.

25:

0: The government does not regularly give reasons for denying an information request to the requestor.

Category II. Elections

II-1. ⁷⁸Voting & Citizen Participation

14. Is there a legal framework guaranteeing the right to vote?

100

14a. In law, universal and equal adult suffrage is guaranteed to all citizens.

YES | NO

References:

Preamble of Act C of 1997 on Electoral Procedures.

YES: A YES score is earned if the right to vote is guaranteed to all citizens of the country (basic age limitations are allowed). A YES score can still be earned if voting procedures are, in practice, inconvenient or unfair.

NO: A NO score is earned if suffrage is denied by law to any group of adult citizens for any reason. Citizen is defined broadly, to include all ethnicities, or anyone born in the country. A NO score is earned if homeless or impoverished people

are legally prohibited from voting.

14b. In law, there is a legal framework requiring that elections be held at regular intervals.

YES | NO

Comments:

Members of Parliament stand for reelection every 4 years.

References:

Art. 20 of Act XX of 1949, Constitution.

YES: A YES score is earned if there is a statutory or other framework enshrined in law that mandates elections at reasonable intervals.

NO: A NO score is earned if no such framework exists.

15. Can all citizens exercise their right to vote?

100

15a. In practice, all adult citizens can vote.

75:

50: Voting is often open to all citizens regardless of race, gender, prior political affiliations, physical disability, or other traditional barriers, with some exceptions.

25:

0: Voting is not available to some demographics through some form of official or unofficial pressure. Voting may be too dangerous, expensive, or difficult for many people.

15b. In practice, ballots are secret or equivalently protected.

25:

0: Ballot preferences are not secret. Ballots are routinely tampered with during transport and counting.

15c. In practice, elections are held according to a regular schedule.

100 | 75 | 50 | 25 | 0

Freedom House, Nations in Transit, 2008.

100: Elections are always held according to a regular schedule, or there is a formal democratic process for calling a new election, with deadlines for mandatory elections.

75:

50: Elections are normally held according to a regular schedule, but there have been recent exceptions. The formal process for calling a new election may be flawed or abused.

25:

0: Elections are called arbitrarily by the government. There is no functioning schedule or deadline for new elections.

16. Are citizens able to participate equally in the political process?

16a. In law, all citizens have a right to form political parties.

YES | NO

References:

Art 2 of Act II of 1989 on the Right to Association and Art 1 of Act XXXIII of 1989 on the Operation and Financing of Political Parties.

YES: A YES score is earned if citizens have the right to form political parties without interference from government. A YES score may still be earned if groups or individuals with a history of violence or terrorism (within last ten years) are banned from forming political parties. Non-discriminatory minimal criteria (e.g. minimum age) are also allowed.

NO: A NO score is earned if there are any legal or regulatory restrictions or prohibitions barring any types of political parties from being formed.

16b. In law, all citizens have a right to run for political office.

YES | NO

References:

Article 70 of the Constitution

YES: A YES score is earned if all citizens (citizen is defined broadly, to include all ethnicities, or anyone born in the country) have the right under law to run for political office. A YES score may still be earned if individuals with a history of violence, terrorism, or criminality are banned from running for office.

NO: A NO score is earned if there are any legal restrictions barring certain individuals or groups from running for political office.

16c. In practice, all citizens are able to form political parties.

100 | 75 | 50 | 25 | 0

Comments:

There are around 170 registered parties, most of which are not active.

Miért éri meg pártot alapítani, HVG, July 19 2008.

http://hvg.hu/itthon/20080709_partalapitas_allami_szamvevoszek_partok.aspx

100: While there is no guarantee of electoral success, political parties can form freely without opposition.

75:

50: Some barriers to formation are present, such as burdensome registration requirements that may not be fairly applied. Some parties' political viewpoints may draw pressure from the government, such as surveillance or intimidation. Some political parties or organizations may have extra barriers to getting on a ballot.

25:

0: Some political parties are effectively barred from forming through some manner of official or unofficial pressure. This may include threats, arrest, or violence from competing parties or other groups.

16d. In practice, all citizens can run for political office.

100 | 75 | 50 | 25 | 0

Comments:

Electoral campaigns are expensive enough so that only parties can afford them. Candidates without party support have much less chance to win through electoral campaigns.

100: While there is no guarantee of electoral success, anyone can run for office under transparent and equitable guidelines. There is a formal process for access to the ballot which is fairly applied. The costs of running a campaign are reasonable and do not deter candidates from entering a race.

75:

50: Some barriers exist to getting on the ballot and bureaucratic or regulatory requirements for doing so may be unfairly applied. The costs of running a political campaign are significant and result in dissuading some candidates from running for office. A system of party lists may discourage or prevent independent candidates from running for office.

25:

0: Citizens can effectively be barred from the ballot through government abuse of official rules and/or unofficial pressure. The costs of running a campaign are extremely high and result in most average citizens being unable to run an effective campaign for office.

16e. In practice, an opposition party is represented in the legislature.

References:

Borbála Garai: Legislature, In: Corruption risks in Hungary, The National integrity System Country Study Part One, Transparency International, 2007.

100: The opposition party always has some influence on the proceedings of the legislature. The opposition party can introduce legislation or bring pending matters to a vote without the consent of the ruling party.

75:

50: The opposition party has influence on the proceeding of the legislature, but it is limited in scope. The opposition's ability to force votes or publicly debate certain topics may be limited.

25:

0: The opposition party has only token participation in the legislature's proceedings and cannot advance legislation or force a debate.

II-2. Election Integrity

18. Is the election monitoring agency effective?

85

18a. In law, the agency or set of agencies/entities is protected from political interference.

YES | NO

References:

Article 21 of Act C of 1997 on Electoral Procedures

YES: A YES score is earned only if the agency or set of agencies/entities has some formal organizational independence from the bodies contesting in the election. A YES score is still earned even if the entity is legally separate but in practice staffed by partisans.

NO: A NO score is earned if the election monitoring agency or set of agencies/entities is legally tied to bodies contesting the election (i.e. an executive branch agency such as the Interior Ministry, or a committee of the legislature). A NO score is automatically earned if there is no domestic election monitoring agency.

18b. In practice, agency (or set of agencies/entities) appointments are made that support the independence of the agency.

100 | 75 | 50 | 25 | 0

Comments:

The National Election Committee (NEC) has elected and commissioned members. Commissioned members are assigned by parties, while Elected members are elected by a simple majority of the Parliament on the basis of the recommendation of the minister of the interior. This voting system favors governing parties' candidates.

25:

0: The agency or set of agencies/entities has no staff, or such a limited staff that is clearly unqualified to fulfill its mandate.

18d. In practice, the agency or set of agencies/entities makes timely, publicly available reports following an election cycle.

100: Reports are released to the public on a predictable schedule, without exceptions.

75:

50: Reports are released, but may be delayed, difficult to access, or otherwise limited.

25:

0: The agency or set of agencies/entities makes no public reports, issues reports which are effectively secret, or issues reports of no value.

18e. In practice, when necessary, the agency or set of agencies/entities imposes penalties on offenders.

100 | 75 | 50 | 25 | 0

Comments:

Election agencies do not investigate; the burden of proof is on citizens reporting the breach of law. However election agencies have strong rights of injunctions. If they sustain the complaint, they establish the fact of violation, bar the violator from further breach of the rules, and annul the election procedure or the part thereof affected by the violation, and provide for that part of the election to be repeated. According to the parliamentary reports of the NEC, the latter power of injunction is not exercised in practice. This suggests that other types of sanctions may be necessary.

References:

Szabó-Somody: Election Commissions In. Corruption Risks in Hungary, The National Integrity System Country Study, Part One, Transparency International, 2007.

100: When rules violations are discovered, the agency or set of agencies/entities is aggressive in penalizing offenders and/or in cooperating with other agencies in penalizing offenders.

75:

50: The agency or set of agencies/entities enforces rules, but is limited in its effectiveness. The agency may be slow to act, unwilling to take on politically powerful offenders, reluctant to cooperate with other agencies, or occasionally unable to enforce its judgments.

25:

0: The agency or set of agencies/entities does not effectively penalize offenders and/or cooperate with other agencies in penalizing offenders. The agency may make judgments but not enforce them, or may fail to make reasonable judgments

against offenders. The agency may be partisan in its application of power.

19. Are elections systems transparent and effective?

96

19a. In practice, there is a clear and transparent system of voter registration.

100 | 75 | 50 | 25 | 0

References:

50: There is a transparent voter registration system that provides voters with sufficient time to understand their rights, check the accuracy of their registration, and ensure that errors are corrected before they vote but there are some problems. Voters may have not access to registration lists with sufficient time to correct errors before voting or registration lists may at times be inaccessible.

25:

0: The system of voter registration is incomplete or does not exist. Government may routinely falsify registration lists to affect voting patterns and limit access to the polls. Double voting and ghost" voting by non-existent voters is common.

19b. In law, election results can be contested through the judicial system.

YES | NO

References:

Section X of Act C of 1997 on electoral procedures.

YES: A YES score is earned if citizens or political parties can challenge allegedly fraudulent election results through the courts or other judicial mechanisms.

NO: A NO score is earned if there is no legal right for citizens or political parties to challenge allegedly fraudulent election results in the courts or other judicial mechanisms.

19c. In practice, election results can be effectively appealed through the judicial system.

100 | 75 | 50 | 25 | 0

Comments:

Election agencies do not have a right to investigate. Although they make decisions quickly, the variety of sanctions they can impose is inadequate. Results of the elections can be challenged at the election agencies. Since they do not have a right to investigate, it is hard for them to prove abuse during the elections. No further appeal mechanisms exist. If we take into account that the government was changed in three of the last four elections, 3 times out of the 4 elections, however, it seems that the system functions adequately.

References:

Szabó-Somody: Election Commissions In. Corruption risks in Hungary, The National Integrity System Country Study Part One, Transparency International, 2007.

100: The electoral appeals mechanism takes cases from both candidates complaining of flaws in the electoral process as well as citizens bringing complaints related to denial of suffrage or registration errors. There is an expedited process for resolving such complaints to avoid delaying a timely announcement of electoral results.

75:

50: The electoral appeals mechanism takes complaints from both candidates and voters but may not always act on complaints promptly. The appeals mechanism may be abused at times by parties or candidates seeking to delay the announcement of electoral results.

25:

0: The electoral appeals mechanism rarely or never acts on complaints brought by candidates or citizens. Citizens may not be able to bring complaints related to denial of suffrage or voter registration errors.

100: The military, military officers, and other security forces refrain from overtly supporting or opposing political candidates or commenting on elections. The military or security forces refrain from physically interfering with political campaigns, rallies, or voting.

75:

50: The military, military officers, and security forces may be known to unofficially support or oppose particular candidates or parties. The military or security forces generally refrain from the use of force to support or oppose particular candidates or parties but there are exceptions.

25:

0: The military or other security forces are an active and explicit player in politics and overly support or oppose particular candidates or parties. The military or security forces routinely exercise the use of force to support or oppose parties or candidates.

75:

50: Election observers generally have access to polling sites, counting stations, and voters but encounter restrictions in certain areas. The government may impose burdensome regulatory or bureaucratic requirements on observers to discourage their involvement.

25:

0: Election observers' movements are significantly limited by the government and many polling and counting sites are restricted or barred from observers. The government imposes so many bureaucratic or regulatory burdens on the observers that their mission is rendered ineffective.

NO: A NO score is earned if no domestic agency or set of domestic agencies/entities exists that monitors elections. A NO score is earned if elections are only monitored by an agency informally, such as poll booth monitoring by the police, only by international observers, or only by NGOs. A NO score is earned if the domestic election agency or set of domestic agencies simply facilitates the process of voting but is not empowered to report violations or abuses.

II-3. Political Financing

20. Are there regulations governing the financing of political parties?

43

20a. In law, there are regulations governing private contributions to political parties.

YES | NO

Comments:

Parties can receive donations from the state, individuals, corporations and foundations. Parties cannot receive donations from a foreign state.

References:

YES: A YES score is earned if there are any formal rules (by law or regulation) controlling private contributions to political parties, including prohibitions against foreign donations.

NO: A NO score is earned if there is no regulation of private contributions to political parties.

20b. In law, there are limits on individual donations to political parties.

YES | **NO**

Comments:

Donations above HUF 500,000 (US\$2478) have to be enlisted in the annual report of parties. Foreign donations above HUF 100,000 (cc. EUR 450) have to be enlisted in the annual report of parties.

YES: A YES score is earned if there are any limits in size on individual contributions to political parties. A YES score is also earned if individual contributions are prohibited.

NO: A NO score is earned if there are no limits on contributions from individuals. A NO score is also earned if limits are applied by the government on opposition parties in a discriminatory manner.

20c. In law, there are limits on corporate donations to political parties.

YES | **NO**

Comments:

Donations above HUF 500 000 (US\$2478) have to be enlisted in the annual report of parties. Foreign donations above HUF 100,000 (US\$496) have to be listed in the annual report of parties.

NO: A NO score is earned if there are no limits on corporate contributions to political parties. A NO score is also earned if limits are applied by the government on opposition parties in a discriminatory manner.

20d. In law, there are limits on total political party expenditures.

YES | NO

Comments:

There are no limits on party expenditures however there are strict limits on campaign expenditures which are impossible to keep to. See Article 91-93 of Act C of 1997 on Election Procedures.

References:

Act XXXIII of 1989 on the Operation and Financial Functioning of Political Parties.

YES: A YES score is earned if there are any limits in size on political party expenditures. A YES score is earned if all party expenditures are prohibited.

NO: A NO score is earned if there are no limits on political party expenditures. A NO score is also earned if limits are applied by the government on opposition parties in a discriminatory manner.

20e. In law, there are requirements for the disclosure of donations to political parties.

YES | NO

Comments:

Donations above HUF 500,000 (cc. US\$2478) have to be published in the annual report of parties. Foreign donations above HUF 100,000 (cc. US\$496) have to be published in the annual report of parties. Regulations are circumvented in practice by receiving donations from foundations to which no strict disclosure rules apply regarding their donors. Party spending in campaign periods is much higher than the reported expenditures (according to independent estimates up to 10 times higher), which leads to the common supposition that not all income of political parties is actually disclosed.

References:

Art. 9 of Act XXXIII of 1989 on the Operation and Financial Functioning of Political Parties.

YES: A YES score is earned if there are any requirements mandating the disclosure of financial contributions to political parties.

NO: A NO score is earned if there are no requirements mandating the disclosure of contributions to political parties, existing regulations do not require a donor's name or amount given, or the regulations allow for anonymous donations.

20f. In law, there are requirements for the independent auditing of the finances and expenditures of political parties.

YES | NO

Comments:

Annual financial reports are prepared by the bookkeepers of parties and are not audited by independent organizations. Formatting of financial reporting is rather basic does not allow for detailed tracking.

References:

Act XXXIII of 1989 on the Operation and Financial Functioning of Political Parties.

YES: A YES score is earned if there is a legal or regulatory requirement for the independent auditing of party finances and expenditures. The auditing is performed by an impartial third-party.

NO: A NO score is earned if there are no legal or regulatory requirements for the independent auditing of political parties' finances and expenditures or if such requirements exist but allow for parties to self-audit.

20g. In law, there is an agency or entity that monitors the financing of political parties.

YES | NO

Comments:

According to the law the State Audit Office (SAO) oversees the financial management of parties. This regulation is interpreted rather narrowly by the SAO, which limits itself to examine whether the reports are submitted according to the law. On the other hand, the SAO argues that it lacks the authority and financial resources to conduct investigations into parties' finances.

YES: A YES score is earned if there is a domestic agency or set of domestic agencies/entities formally assigned to monitor and enforce laws and regulations around the financing of political parties. A YES score is earned even if the agency/entity is ineffective in practice.

NO: A NO score is earned if there is no such agency or entity.

21. Are there regulations governing the financing of individual political candidates?

21d. In law, there are requirements for the disclosure of donations to individual political candidates.

YES | NO

Comments:

Independent candidates have to publish campaign spending and sources 60 days after elections. Reports are rather formal and do not allow for real monitoring. Political candidates of a certain party do not have to make their individual expenditures and donations. They are only required to report the party's expenditures as a whole.

YES: A YES score is earned if there are any requirements mandating the disclosure of financial contributions to individual political candidates.

NO: A NO score is earned if there are no requirements mandating the disclosure of contributions to individual political candidates, existing regulations do not require a donor's name or amount given, or the regulations allow for anonymous donations.

21e. In law, there are requirements for the independent auditing of the campaign finances of individual political candidates.

Act C of 1997 on Electoral Procedures

YES: A YES score is earned if there is a legal or regulatory requirement for the independent auditing of an individual candidate's campaign finances and expenditures. The auditing is performed by an impartial third-party.

NO: A NO score is earned if there are no legal or regulatory requirements for the independent auditing of an individual candidate's campaign finances and expenditures or if such requirements exist but allow for candidates to self-audit.

21f. In law, there is an agency or entity that monitors the financing of individual political candidates' campaigns.

YES | NO

The Supreme Audit Office is the monitoring agency.

Art. 92 of Act C on Electoral Procedures

YES: A YES score is earned if there is a domestic agency or set of domestic agencies/entities formally assigned to monitor and enforce laws and regulations around the financing of individual political candidates' campaigns. A YES score is earned even if the agency/entity is ineffective in practice.

NO: A NO score is earned if there is no such agency or entity.

22. Are the regulations governing the political financing of parties effective?

13

22a. In practice, the limits on individual donations to political parties are effective in regulating an individual's ability to financially support a political party.

100 | 75 | 50 | 25 | 0

Comments:

Reform recommendations provided by an independent research institute and supported by all parties do not include limiting the amount of donations, but on making parties' finances fully transparent. They would ban corporate donations and define government support, depending on the amount of individual donations.

75:

50: Existing limits generally represent the full extent to which an individual can directly or indirectly financially support a political party. However, exceptions and loopholes exist through which individuals can indirectly support political parties above and beyond those formal limitations. Such loopholes could include making donations to third-party groups that advocate on behalf of (or against) a particular party; unregulated loans to parties (rather than direct donations); or in-kind support that is not explicitly regulated by laws or regulations. The limits may be too high in the context of the overall costs of running a campaign.

25:

0: Existing limits are routinely bypassed or willfully ignored. The vast majority of individual contributions to a political party are made outside of the formal limitation system. There is no enforcement of violations. Limits are so high that they are meaningless in the context of the overall costs of running a campaign.

22b. In practice, the limits on corporate donations to political parties are effective in regulating a company's ability to financially support a political party.

Comments:

All of Hungary's active political parties, an independent research institute and a substantial segment of the Hungarian business community (e.g. the American Chamber of Commerce, which represents 85% of foreign investment into Hungary) support a ban on political donations by corporations. Their reasoning is that parties are elected by citizens who themselves should support candidates and parties financially – not corporations, where economic and lobby interests could prevail over the views of citizenry. A bill banning corporate donations was submitted to Parliament a year ago, however, and it has not been discussed, nor has any date been set for deliberations.

Comments:

Existing campaign limits are so low that they are impossible to enforce. According to independent estimates the two major parties use 10 times more funds for campaigns than the law technically allows.

Comments:

In case of financial irregularities (e.g. violating the spending limit, the SAO) may require the party in question to pay a fine of twice

the amount by which it exceeded the legal limit. This happened to Centrum Party in 2002. This was a case of obvious violations of campaign spending limits to show that they are impossible to enforce. Parties normally use the right figures (within the limits) and as the SAO does not investigate there is no penalty imposed.

24. Can citizens access records related to the financing of political parties?

83

24a. In practice, political parties disclose data relating to financial support and expenditures within a reasonable time period.

100 | 75 | 50 | 25 | 0

Comments:

Parties have to publish financial reports by April 30th of each year in the Official Gazette of Hungary. Normally they comply with the law, e.g in 2008 only the Centrum Party was a bit late, their financial report appeared on May 6th.

Category III. Government Accountability

III-1. ⁶⁸Executive Accountability

27. Can the chief executive be held accountable for his/her actions?

81

27a. In practice, the chief executive gives reasons for his/her policy decisions.

100 | 75 | 50 | 25 | 0

Comments:

If it comes for legislation, there is always an explanation. If it is about a new policy there are press conferences and explanations, which might not be satisfactory, but there is the chance for journalists to ask questions in a regulated manner.

References:

<http://www.kormanysovivo.hu>

100: The chief executive and/or cabinet ministers give formal explanations of all policy matters. The chief executive regularly takes critical questions from journalists or an opposition party, usually at least once a month. There is no censoring of such sessions.

75:

50: The chief executive and/or cabinet ministers give explanations of policy, but not always in a timely or complete way. The chief executive occasionally takes critical questions from journalists or an opposition party, but not in a regular or formalized process. Particular issues of political sensitivity may be censored by government broadcasters.

25:

0: The chief executive and/or cabinet ministers do not give substantial justifications for policy. Public appearances by the chief executive offer no exposure to critical questions. The government and government-run media routinely censor such sessions.

27b. In law, the judiciary can review the actions of the executive.

YES | NO

References:

Act 140/2004 on the General Rules of Public Administrative Procedures

YES: A YES score is earned if there is a formal process by which the judiciary can pass judgments on the legality or constitutionality of actions taken by the executive.

NO: A NO score is earned if no such mechanism exists. A NO score is earned if judicial review is vaguely established in law or regulation without formal procedures. A NO score is earned if general exemptions exist with respect to executive actions

that are reviewable (a national security exemption, for example).

27c. In practice, when necessary, the judiciary reviews the actions of the executive.

100 | 75 | 50 | 25 | 0

Comments:

Legislation may be initiated by the executive but has to be passed by the parliament

The Constitutional Court decides on whether a law is constitutional. Any legislation initiated by the executive has to be passed by the Parliament and the President may seek the opinion of the Constitutional Court. However the judiciary and the Constitutional Court does not revise the policies and actions of the executive. The judiciary does not always act quickly, however, when there are complaints about the executive branch.

References:

Activities of the Constitutional Court at <http://www.mkab.hu>

100: When constitutional or legal questions or possible violations are raised, the judiciary is aggressive in reviewing executive actions and can void illegal or unconstitutional actions. The judiciary is fair and nonpartisan in its application of this power. It does not need to rely upon the executive to initiate a constitutional or legal review.

75:

50: The judiciary will review executive actions, but is limited in its effectiveness. The judiciary may be slow to act, unwilling to take on politically sensitive issues, or occasionally unable to enforce its judgments.

25:

0: The judiciary does not effectively review executive policy. The judiciary may make judgments but not enforce them, or may fail to pass judgments on executive abuses. The judiciary may be partisan in its application of power. It must rely on instructions from the executive in order to initiate a legal or constitutional review.

27d. In practice, the chief executive limits the use of executive orders for establishing new regulations, policies, or government practices.

100 | 75 | 50 | 25 | 0

Comments:

All laws should be countersigned by the President of the Republic who normally submits legislation to the Constitutional Court for review.

There is no data about the ratio of law-substituting executive orders. The executive does apply this method, but the public perception might even be worse than the frequency of their actual application.

References:

Burai: Executive In: The National integrity System Country Study Part One, Transparency International, 2007.

100: The chief executive utilizes executive orders only when there is no constitutional or legal requirement for official legislative action or approval. Executive orders are limited in number and narrow in scope.

75:

50: The chief executive sometimes relies on executive orders to implement policies and regulations opposed by the legislature. Some executive orders are overly broad in scope and are designed to circumvent constitutional or legal requirements for legislative action or approval.

25:

0: The chief executive routinely abuses executive orders to render the legislature practically useless. Executive orders are the norm, not the exception, and directly contravene constitutional or legal requirements for legislative action or approval.

28. Is the executive leadership subject to criminal proceedings?

100

28a. In law, the heads of state and government can be prosecuted for crimes they commit.

YES | NO

Comments:

Only Members of Parliament enjoy immunity; state secretaries can be prosecuted. Members of Parliament can also be prosecuted after their immunity is withdrawn by a parliamentary committee.

References:

Act LV of 1990 on the Immunity of Members of Parliament.
Act LVII of 2006 on the Rights of State Leaders.

YES: A YES score is earned if the heads of state and government can be investigated, charged or prosecuted for criminal allegations. Figurehead officials (symbolic figures without day-to-day authority) may be exempt.

NO: A NO score is earned if either the head of state or government cannot be investigated, charged or prosecuted for criminal allegations or the executive branch controls whether investigative or prosecutorial immunity can be lifted on the heads of state or government.

28b. In law, ministerial-level officials can be prosecuted for crimes they commit.

YES | NO

Comments:

Ministerial level officials enjoy immunity which can be lifted by a superior organ (parliamentary committee, judicial council, the parliament, etc.) depending on what kind of office the person fills. Eg. a minister's right to immunity can be lifted by 2/3rd majority of the Parliament, while the immunity of judges may be lifted by the Judicial Council.

NO: A NO score is earned if there are no guidelines or regulations with respect to gifts and hospitality offered to members of the executive branch. A NO score is earned if the guidelines are overly general and do not specify what is and is not appropriate.

29d. In law, there are requirements for the independent auditing of the executive branch asset disclosure forms (defined here as ministers and heads of state and government).

YES | NO

YES: A YES score is earned if there is a legal or regulatory requirement for independent auditing of executive branch asset disclosures. The auditing is performed by an impartial third-party. Figurehead officials (symbolic figures without day-to-day authority) may be exempt.

NO: A NO score is earned if there are no legal or regulatory requirements for the independent auditing of executive branch asset disclosures or if such requirements exist but allow for self-auditing.

29e. In law, there are restrictions on heads of state and government and ministers entering the private sector after leaving the government.

YES | **NO**

Figurehead officials (symbolic figures without day-to-day authority) may be exempt.

NO: A NO score is earned if no such restrictions exist.

III-3. Judicial Accountability

36. Are judges appointed fairly?

83

36a. In law, there is a transparent procedure for selecting national-level judges.

YES | NO

Comments:

There is an obligatory exam but there is no obligation to take results into account when appointing judges.

References:

Art. 14 of Act LXVIII of 1997
5/2007 Regulation of the National Judicial Council.

YES: A YES score is earned if there is a formal process for selecting national level justices. This process should be public in the debating and confirmation stages. National-level judges are defined as judges who have powers that derive from a national law or constitution; are nominated/appointed by a national governmental body (head of state/government or national legislature); and/or are elected nationally.

NO: A NO score is given if there is no formal process of selection or the process is conducted without public oversight. National-level judges are defined as judges who have powers that derive from a national law or constitution; are nominated/appointed by a national governmental body (head of state/government or national legislature); and/or are elected nationally.

36b. In practice, professional criteria are followed in selecting national-level judges.

100: National-level judges selected have relevant professional qualifications such as formal legal training, experience as a lower court judge or a career as a litigator.

75:

50: Most national-level judges selected meet these qualifications, with some exceptions.

25:

0: National-level judges are often unqualified due to lack of training or experience.

36c. In law, there is a confirmation process for national-level judges (i.e. conducted by the legislature or an independent body).

YES | **NO**

Comments:

Only those who have passed the a detailed exam can become judges. This special exam is taken after candidates have three years of experience working in any field of legal profession. Future judges normally fulfill this three-year internship period in a court. Once they have passed this central exam (which is the same for all ex-law students) they can continue working on the court assisting judges at least for another year. If there is a place open for a judge's position then they have to pass a special exam administered by the Judicial Academy and the chair of the court selects the judge who would fulfill the open position. The chair of the court presents the nominee to the Judicial Council which has the right to appoint or not appoint the judge. Normally the Judicial Council goes along with the nomination provided by the chair of the court.

References:

Act LXIII of 1997

YES: A YES score is earned if there is a formal process establishing a review of national-level judicial nominees by an agency independent from the body appointing the judges.

NO: A NO score is earned if there is no formal review. A NO score is earned if the review is conducted by a body directed by the body appointing the judges (such as review by the head of police if judges are appointed by the executive).

50: Judges are compelled to give substantial reasons for their decisions, but some exceptions exist. These may include special courts, such as military courts or tribunals.

25:

0: Judges commonly issue decisions without formal explanations.

37c. In law, there is a disciplinary agency (or equivalent mechanism) for the national-level judicial system.

YES | NO

References:

Act LXVI of 1997 established the National Judicial Council.

YES: A YES score is earned if there is a disciplinary agency (or equivalent mechanism) for the judicial system. A disciplinary agency is defined here as an agency or mechanism specifically mandated to investigate breaches of procedure, abuses of power or other failures of the judiciary.

NO: A NO score is earned if no agency or mechanism is specifically mandated to act as a disciplinary mechanism for the national-level judiciary.

37d. In law, the judicial disciplinary agency (or equivalent mechanism) is protected from political interference.

YES | NO

References:

Art. 34 of Act LXVI of 1997

YES: A YES score is earned if there are formal rules establishing that the judicial disciplinary agency (or equivalent mechanism) is protected from political interference by the executive and legislative branches.

NO: A NO score is earned if there are no formal rules establishing the independence of the judicial disciplinary agency (or equivalent mechanism). A NO score is given if the judicial disciplinary agency or equivalent mechanism function is carried out by an inherently subordinate organization, such as an executive ministry or legislative committee.

37e. In practice, when necessary, the judicial disciplinary agency (or equivalent mechanism) initiates investigations.

100 | 75 | 50 | 25 | 0

Comments:

The case was about a head of a county court. She mismanaged the court over a period of years. Cases were delayed, files disappeared, and the selection of judges was not transparent. The Judicial Council requested explanation only when serious financial problems occurred, but ultimately the Council concluded that no major failure had been proven. Even though documents show evidence of serious mismanagement and the gross incompetence and/or negligence, nothing happened. The judge in question was nominated for and received an award from the President of Hungary. This scandal came out six months ago after thorough analysis of the documents of the Judicial Council. The judge still retains her position.

75:

50: Records take around two weeks to obtain. Some delays may be experienced.

25:

0: Records take more than a month to acquire. In some cases, most records may be available sooner, but there may be persistent delays in obtaining politically sensitive records.

39c. In practice, citizens can access judicial asset disclosure records at a reasonable cost.

75:

50: Records impose a financial burden on citizens, journalists or CSOs. Retrieving records may require a visit to a specific office, such as a regional or national capital.

25:

0: Retrieving records imposes a major financial burden on citizens. Records costs are prohibitive to most citizens, journalists, or CSOs trying to access this information.

III-4. Budget Processes

40. Can the legislature provide input to the national budget?

92

40a. In law, the legislature can amend the budget.

YES | NO

References:

Act XXXVIII of 1992

YES: A YES score is earned if the legislature has the power to add or remove items to the national government budget.

NO: A NO score is earned if the legislature can only approve but not change details of the budget. A NO score is earned if the legislature has no input into the budget process.

40b. In practice, significant public expenditures require legislative approval.

100 | 75 | 50 | 25 | 0

Comments:

The threshold for significant government expenditure changes starts at 2.5% of the national budget.

References:

Act XXXVIII of 1992

100: All significant government expenditures (defined as any project costing more than 1% of the total national budget), must be approved by the legislature. This includes defense and secret programs, which may be debated in closed hearings.

75:

50: Most significant government expenditures (as defined) are approved by the legislature, but some exceptions to this rule exist. This may include defense programs, an executive's personal budget, or other expenses.

25:

0: The legislature does not have the power to approve or disapprove large portions of the government budget, or the legislature does not exercise this power in a meaningful way.

40c. In practice, the legislature has sufficient capacity to monitor the budget process and provide input or changes.

100 | 75 | 50 | 25 | 0

References:

Interview with Mihály Varga, Chair of the Budget Committee, 8th April 2008.

100: Legislators benefit from a sufficient and qualified staff as well as adequate financial and physical resources. Lack of capacity is never a reason why legislators cannot carry out their duties effectively.

75:

50: Legislators have some staff and financial resources but are limited by a shortfall of resources to adequately perform all of their budgetary oversight functions. Legislators are occasionally overwhelmed by the volume of work to be performed.

25:

0: Legislators have little to no staff and virtually no financial resources with which to perform their budgetary oversight role. Lack of resources is a regular and systemic problem that cripples the performance of the legislature.

41. Can citizens access the national budgetary process?

50

41a. In practice, the national budgetary process is conducted in a transparent manner in the debating stage (i.e. before final approval).

100 | 75 | 50 | 25 | 0

Comments:

The budget as a whole is debated in the Parliament, changes in individual chapters cannot be enacted without prior approval. Neither can the public see requests coming from ministries.

References:

100: Budget debates are public and records of these proceedings are easily accessible. Authors of individual budget items can easily be identified. Nearly all budget negotiations are conducted in these official proceedings.

75:

50: There is a formal, transparent process for budget debate, but major budget modifications may be negotiated in separate, closed sessions. Some items, such as non-secret defense projects, may be negotiated in closed sessions. Authors of individual line items may be difficult to identify.

25:

0: Budget negotiations are effectively closed to the public. There may be a formal, transparent process, but most real discussion and debate happens in other, closed settings.

41b. In practice, citizens provide input at budget hearings.

100 | 75 | 50 | **25** | 0

Comments:

Sessions of the Budget Committee are open but there is no way for outside organizations to take part in the discussion unless they are especially invited to do so. This is not a common practice.

100: Citizens, usually acting through CSOs, can provide information or commentary to the budget debate through a formal process. This information is essential to the process of evaluating budget priorities.

75:

50: Citizens or CSOs can provide input, but this information is often not relevant to budget decisions.

25:

0: Citizens or CSOs have no formal access to provide input to the budget debate.

41c. In practice, citizens can access itemized budget allocations.

100 | **75** | 50 | 25 | 0

Comments:

The Budget Act contains the budget allocated to different institutions and programmes. Spending of different agencies is difficult to follow because only lump sums (eg. expenses of all ministries together) are available.

50: Citizens, journalists and CSOs can access itemized lists of budget allocations but this information may be difficult to access, incomplete or out of date.

25:

0: Citizens cannot access an itemized list of budget allocations, due to secrecy, prohibitive barriers or government inefficiency.

43. Is the legislative committee overseeing the expenditure of public funds effective?

67

43a. In practice, department heads regularly submit reports to this committee.

100 | 75 | 50 | 25 | 0

Comments:

Ministers do not submit reports but the government submits annual reports about the implementation of the budget.

References:

100: Heads of ministry- or cabinet-level agencies submit regular, formal reports of expenses to a budget oversight committee.

75:

50: Agency heads submit reports to a budget oversight committee, but these reports are flawed in some way. The reports may be inconsistently delivered, or lacking important details.

25:

0: There is no budget oversight committee or equivalent, or heads of agencies do not submit meaningful reports to the agency.

43b. In practice, the committee acts in a non-partisan manner with members of opposition parties serving on the committee in an equitable fashion.

100 | 75 | 50 | 25 | 0

References:

See composition of the committee at <http://www.parlament.hu>

100: The committee is comprised of legislators from both the ruling party (or parties) and opposition parties in a roughly equitable distribution. All members of the committee — including opposition party members — are able to fully participate in the activities of the committee and influence the committee's work to roughly the same extent as any other member of the committee.

75:

50: The committee is comprised of legislators from both the ruling party (or parties) and opposition parties although the ruling party has a disproportionate share of committee seats. The chairperson of the committee may be overly influential and curb other members' ability to shape the committee's activities.

25:

0: The committee is dominated by legislators of the ruling party and/or the committee chairperson. Opposition legislators serving on the committee have in practice no way to influence the work of the committee.

43c. In practice, when necessary, this committee initiates independent investigations into financial irregularities.

100 | 75 | 50 | 25 | 0

Comments:

Permanent parliamentary committees have no right to conduct investigations.

References:

46/1994 (IX. 30) Parl. Decree

100: When irregularities are discovered, the committee is aggressive in investigating the government.

75:

50: The committee starts investigations, but is limited in its effectiveness. The committee may be slow to act, unwilling to take on politically powerful offenders, or occasionally unable to enforce its judgments.

25:

0: The committee does not effectively investigate financial irregularities. The committee may start investigations but not complete them, or may fail to detect offenders. The committee may be partisan in its application of power.

42. Is there a separate legislative committee which provides oversight of public funds?

100

42. In law, is there a separate legislative committee which provides oversight of public funds?

YES | NO

Comments:

Parliamentary Committee on Budget, Finances and Audits.

References:

46/1994 (IX. 30). Parl. Decree

YES: A YES score is earned if there is a dedicated legislative committee (or equivalent group located in the legislature) that oversees the expenditure of public funds.

NO: A NO score is earned if no such body exists within the legislature. A NO score is earned if there is a body executing this function but it is not part of the legislature (such as a separate supreme audit institution).

Category IV. Administration and Civil Service

IV-1. ~~64~~ Civil Service Regulations

44. Are there national regulations for the civil service encompassing, at least, the managerial and professional staff?

75

44a. In law, there are regulations requiring an impartial, independent and fairly managed civil service.

YES | NO

References:

Preamble of Act XXIII of 1992

YES: A YES score is earned if there are specific formal rules establishing that the civil service carry out its duties independent of political interference.

NO: A NO score is earned if there are no formal rules establishing an independent civil service.

44b. In law, there are regulations to prevent nepotism, cronyism, and patronage within the civil service.

YES | NO

References:

Article 9 of Act XXIII of 1992

YES: A YES score is earned if there are specific formal rules prohibiting nepotism, cronyism, and patronage in the civil service. These should include competitive recruitment and promotion procedures as well as safeguards against arbitrary disciplinary actions and dismissal.

NO: A NO score is earned if no such regulations exist.

44c. In law, there is an independent redress mechanism for the civil service.

YES | NO

Comments:

There is no special mechanism for civil service. There is a redress mechanism for any citizen at the prosecutor's office. Civil servants are in a difficult situation. They can go to the prosecutor's office, however at the same time according to the Civil Service Act they should not reveal any information which could harm the reputation of their colleagues. Therefore, meaningful whistleblower protection does not exist.

References:

Law XXIX of 2004

YES: A YES score is earned if there is a mechanism to which civil servants and applicants for the civil service can take grievances regarding civil service management actions. The mechanism should be independent of their supervisors but can still be located within the government agency or entity (such as a special commission or board). Civil servants are able to appeal the mechanism's decisions to the judiciary.

NO: A NO score is earned if no such mechanism exists.

44d. In law, civil servants convicted of corruption are prohibited from future government employment.

YES | NO

Comments:

Any person convicted of any crime is prohibited from being a civil servant.

References:

Art 7 of Act XXIII of 1992

YES: A YES score is earned if there are specific rules prohibiting continued government employment following a corruption conviction.

NO: A NO score is earned if no such rules exist or if the ban is not a lifetime ban.

45. Is the law governing the administration and civil service effective?

72

45a. In practice, civil servants are protected from political interference.

100: Civil servants operate independently of the political process, without incentive or pressure to render favorable treatment or policy decisions on politically sensitive issues. Civil servants rarely comment on political debates. Individual judgments are rarely praised or criticized by political figures. Civil servants can bring a case to the courts challenging politically-motivated firings.

75:

50: Civil servants are typically independent, yet are sometimes influenced in their judgments by negative or positive political or personal incentives. This may include favorable or unfavorable treatment by superiors, public criticism or praise by the government, or other forms of influence. Civil servants may bring a case to the judicial system challenging politically-motivated firings but the case may encounter delays or bureaucratic hurdles.

25:

0: Civil servants are commonly influenced by political or personal matters. This may include conflicting family relationships, professional partnerships, or other personal loyalties. Negative incentives may include threats, harassment or other abuses of power. Civil servants are unable to find a remedy in the courts for unjustified or politically-motivated firings.

45b. In practice, civil servants are appointed and evaluated according to professional criteria.

100 | 75 | **50** | 25 | 0

Comments:

A reform of the selection and evaluation of civil servants came into force in January 2008. The new regulation introduced a unified exam for applicants, even though the employer is not obliged to employ the person with the best performance. Up to now the program has not been evaluated.

100: Nepotism (favorable treatment of family members), cronyism (favorable treatment of friends and colleagues), and patronage (favorable treatment of those who reward their superiors) are actively discouraged at all levels of the civil service. Hirings, firings, and promotions are based on merit and performance.

75:

50: Nepotism, cronyism, and patronage are discouraged, but exceptions exist. Political leaders or senior officials sometimes appoint family member or friends to favorable positions in the civil service, or lend other favorable treatment.

25:

0: Nepotism, cronyism, and patronage are commonly accepted principles in hiring, firing and promotions of civil servants.

45d. In practice, civil servants have clear job descriptions.

References:

Interview with Petra Burai, independent researcher, 25 August, 2008.

100: Civil servants almost always have formal job descriptions establishing levels of seniority, assigned functions, and compensation. Job descriptions are a reliable representation of positions in terms of a person's authority, responsibility and base pay.

75:

50: Civil servants often have formal job descriptions, but exceptions exist. Some civil servants may not be part of the formal assignment of duties and compensations. Some job descriptions may not map clearly to pay or responsibilities in some cases.

25:

0: Civil servants do not have formal roles or job descriptions. If they do, such job descriptions have little or nothing to do with the position's responsibilities, authority, or pay.

45e. In practice, civil servant bonuses constitute only a small fraction of total pay.

100 | 75 | 50 | 25 | 0

Comments:

Bonus paid cannot exceed the amount of the basic fee multiplied by 10. The basis fee is the monthly basis and all civil servant earn more than that. As an average civil servants gets a maximum of 1.5 times his or her monthly salary as bonus each year. This is 12.5% of the salary on a yearly basis, but normally they get less as a bonus. According to the law civil servants are entitled to get a 13-month salary.

Art. 49/N of Act XXXIII of 1992

100: Civil servant bonuses constitute no more than 10% of total pay and do not represent a major element of take-home pay.

75:

50: Civil servant bonuses are generally a small percentage of total take-home pay for most civil servants though exceptions exist where some civil servants' bonuses represent a significant part of total pay.

25:

0: Most civil servants receive bonuses that represent a significant amount of total take-home pay. In some cases bonuses represent the majority of total pay to civil servants.

45f. In practice, the government publishes the number of authorized civil service positions along with the number of positions actually filled.

25:

0: The government rarely or never publishes such a list, or when it does it is wholly incomplete.

45g. In practice, the independent redress mechanism for the civil service is effective.

100 | 75 | 50 | 25 | 0

References:

No special mechanisms for civil service exist.

100: The independent redress mechanism for the civil service can control the timing and pace of its investigations without any input from the bodies that manage civil servants on a day-to-day basis.

75:

50: The independent civil service redress mechanism can generally decide what to investigate and when but is sometimes subject to pressure from the executive or the bodies that manage civil servants on a day-to-day basis on politically sensitive issues.

25:

0: The civil service redress mechanism must rely on approval from the executive or the bodies that manage civil servants on a day-to-day basis before initiating investigations. Politically sensitive investigations are almost impossible to move forward on.

45h. In practice, in the past year, the government has paid civil servants on time.

IV-2. Whistle-blowing Measures

48. Are employees protected from recrimination or other negative consequences when reporting corruption (i.e. whistle-blowing)?

44

48a. In law, civil servants who report cases of corruption, graft, abuse of power, or abuse of resources are protected from recrimination or other negative consequences.

YES | NO

Comments:

Legislation is contradictory. The Criminal Code sanctions the person who takes a disadvantageous measure against the another because of his or her announcement of public concern. At the same time, the Civil Service Act and the Labor Law states that a civil servant cannot give out any information which would damage the reputation of his/her colleagues.

YES: A YES score is earned if there are specific laws against recrimination against private sector whistleblowers. This may include prohibitions on termination, transfer, harassment or other consequences.

NO: A NO score is earned if there are no legal protections for private-sector whistleblowers.

48d. In practice, private sector employees who report cases of corruption, graft, abuse of power, or abuse of resources are protected from recrimination or other negative consequences.

100 | 75 | **50** | 25 | 0

Comments:

Even though there is no special legislation for private sector employees some companies do set up whistleblowing protection systems. 17% of white collar crime cases were revealed thanks to anonymous hotlines.

IV-3. Procurement

51. Is the public procurement process effective?

65

51a. In law, there are regulations addressing conflicts of interest for public procurement officials.

YES | NO

References:

Art. 10 of Act of CXXIX of 2003 on Public Procurements.

YES: A YES score is earned if there are specific formal regulations defining and regulating conflicts of interest between official public duty and private interests for public procurement officials. A YES score is earned if such regulations cover all civil servants, including procurement officials.

NO: A NO score is earned if no such rules exist.

51b. In law, there is mandatory professional training for public procurement officials.

YES | NO

Comments:

The Public Procurements Council organizes the training of public procurement officials, but training is not obligatory for those dealing with procurements. In certain procedures an official public procurement adviser has to be involved.

References:

Art. 379 (m) of Act CXXIX of 2003 on Public procurements.

YES: A YES score is earned if public procurement officials receive regular mandatory training to ensure professional standards in supervising the tendering process. A YES score is earned if such training is mandated for portions of the broader civil service, to include procurement officials.

NO: A NO score is earned if there is no regular required training of public procurement officials or if training is sporadic, inconsistent, unrelated to procurement processes, or voluntary.

51c. In practice, the conflicts of interest regulations for public procurement officials are enforced.

100 | 75 | 50 | 25 | 0

Comments:

Stakeholders have to sign conflict of interests declarations which are not well controlled.

25:

0: Conflict-of-interest regulations do not exist, or are consistently ineffective.

51d. In law, there is a mechanism that monitors the assets, incomes and spending habits of public procurement officials.

YES | NO

Comments:

The regulation refers to all civil servants, there is no special legislation for public procurement officials.

References:

Act XXIII of 1992

YES: A YES score is earned if there is a formal mandate to some agency to monitor the assets, incomes and spending habits of public procurement officials, such as an inspector general, or ombudsman.

NO: A NO score is earned if no such mandate exists.

51e. In law, major procurements require competitive bidding.

YES | NO

References:

Act CXIX of 2003 on Public Procurements.

YES: A YES score is earned if all major procurements (defined as those greater than 0.5% of GDP) require competitive bidding.

NO: A NO score is earned if competitive bidding is not required by law or regulation for major procurement (greater than 0.5% OF GDP).

51f. In law, strict formal requirements limit the extent of sole sourcing.

YES | NO

References:

Act CXIX of 2003 on public procurements.

YES: A YES score is earned if sole sourcing is limited to specific, tightly defined conditions, such as when a supplier is the only source of a skill or technology.

NO: A NO score is earned if there are no prohibitions on sole sourcing. A NO score is earned if the prohibitions on sole sourcing are general and unspecific.

51g. In law, unsuccessful bidders can instigate an official review of procurement decisions.

YES | NO

References:

Chapter VII of Act CXXIX of 2003 on Public procurements.

YES: A YES score is earned if there is a formal appeal process for unsuccessful bidders.

NO: A NO score is earned if no such process exists.

51h. In law, unsuccessful bidders can challenge procurement decisions in a court of law.

YES | NO

YES: A YES score is earned if unsuccessful bidders can use the courts to appeal a procurement decision.

NO: A NO score is earned if no such process exists.

51i. In law, companies guilty of major violations of procurement regulations (i.e. bribery) are prohibited from participating in future procurement bids.

YES | NO

Comments:

Companies might be prohibited, but prohibition is not automatic or compulsory.

References:

Art. 340 of Act CXXIX of 2003 on public procurements.

YES: A YES score is earned if there are formal procurement blacklists, designed to prevent convicted companies from doing business with the government.

NO: A NO score is earned if no such process exists.

51j. In practice, companies guilty of major violations of procurement regulations (i.e. bribery) are prohibited from participating in future procurement bids.

25:

0: The agency (or agencies) makes no reports of its activities, or makes reports that are consistently out of date, unavailable to the public, or insubstantial.

56h. In practice, when necessary, the national ombudsman (or equivalent agency or agencies) initiates investigations.

100 | 75 | 50 | 25 | 0

Comments:

On the basis of individual complaints the ombudsman analyzes the practices of an institution or a system. For example, it was not clear to which extent the operation of courts should be public, whether the trial is public and all documents are public. The ombudsman issued a position paper on the issue which is taken as a guiding statement of best practices in the future. So the ombudsman only analyzes existing documents and practices but does not investigate in the sense of developing new evidence and prosecuting criminals. But all ombudsmen are very highly regarded and they do make thorough, independent analysis of cases.

100

55. In law, is there a national ombudsman, public protector or equivalent agency (or collection of agencies) covering the entire public sector?

YES | NO

Comments:

There are four ombudsmen: Ombudsman of civil rights, Ombudsman of data protection and the freedom of information Ombudsman and the Ombudsman of minorities. The ombudsman of civil rights and the one minorities are mentioned in the Constitution. There is a law on the Ombudsman of Civil rights which also makes reference to the newer and more specialized ombudsmen offices. The ombudsman of data protection and the ombudsman of freedom of information are included in the law on data protection and freedom of information.

63. In practice, are tax laws enforced uniformly and without discrimination?

100 | 75 | 50 | 25 | 0

Comments:

According to businesspeople it happens that the employees of the tax authority have to perform "certain figures, i.e., reach a certain level of income from taxes. So tax officers call companies and tell them that if they are willing to pay a certain amount of fine they won't check all the books of the company. Interviews confirmed this process but there is no hard evidence or data that reflects this trend.

Comments:

It is a general complaint that sentences imposed in corruption cases are light because investigations take a long time and a lot of evidence is lost during the investigation. Political influence might not be excluded in major corruption cases which are substantiated by media reports revealing close connection between companies and public contracts.

100: This agency (or agencies) operates independently of the political process, without incentive or pressure to render favorable judgments in politically sensitive cases. Investigations can operate without hindrance from the government, including access to politically sensitive information. .

75:

50: This agency (or agencies) is typically independent, yet is sometimes influenced in its work by negative or positive political incentives. This may include favorable or unfavorable public criticism by the government, political appointments, or other forms of influence. The agency (or agencies) may not be provided with some information needed to carry out its investigations.

25:

0: This agency (or agencies) is commonly influenced by political or personal incentives. These may include conflicting family relationships, professional partnerships, or other personal loyalties. Negative incentives may include threats, harassment or other abuses of power. The agency (or agencies) cannot compel the government to reveal sensitive information.

75c. In practice, the head of the anti-corruption agency (or agencies) is protected from removal without relevant justification.

100 | 75 | **50** | 25 | 0

Comments:

The head of the National Investigating Office is nominated by the head of the Police. In case of major failures (not necessarily in corruption cases) the head of the Police can be removed. Also he or she can be transposed to a similar-level of workplace. However, in an interview with István Szikinger, he was convinced that there is no anti-corruption agency in Hungary and that the police are not independent at all.

The Chair of the Board is the Minister of Justice. If he is removed because of any political and/or personal reason, the chair of the board is changed automatically.

75e. In practice, the anti-corruption agency (or agencies) has a professional, full-time staff.

100 | 75 | **50** | 25 | 0

Comments:

The police agency does have a full-time staff, but most of their time is dedicated to organized crime cases, rather than corruption.

100: The agency (or agencies) has powers to gather information, including politically sensitive information. The agency (or agencies) can question suspects, order arrests and bring suspects to trial (or rely on related agencies or law enforcement authorities to perform such functions).

75:

50: The agency (or agencies) has most of the powers needed to carry out its mandate with some exceptions.

25:

0: The agency (or agencies) lacks significant powers which limit its effectiveness.

75i. In practice, when necessary, the anti-corruption agency (or agencies) independently initiates investigations.

100 | 75 | 50 | 25 | 0

Comments:

Media often reports about corruption cases, but investigation only starts if there is a criminal charge filed by a citizen. These investigations are conducted by the anti-corruption police unit as the board has no investigative powers.

75:

50: The agency (or agencies) starts investigations, but is limited in its effectiveness or is reluctant to cooperate with other investigative agencies. The agency (or agencies) may be slow to act, unwilling to take on politically powerful offenders, or occasionally unable to enforce its judgments.

25:

0: The agency (or agencies) does not effectively investigate or does not cooperate with other investigative agencies. The agency (or agencies) may start investigations but not complete them, or may fail to detect offenders. The agency (or agencies) may be partisan in its application of power.

76. Can citizens access the anti-corruption agency?

74. Is there an agency (or group of agencies) with a legal mandate to address corruption?

100

74. In law, is there an agency (or group of agencies) with a legal mandate to address corruption?

YES

NO

Comments:

The situation is the following: there is no independent agency that would have the exclusive mandate to investigate corruption cases. There are several departments that because of the internal division of labor of certain institutions deal with different types of corruption cases. The main organizations are:

There is a department at the Police called the National Investigating Office which focuses on organized crime, money laundering and corruption related crimes. They investigate these crimes. As the Police is structured under the Ministry of Justice and Law enforcement it is not independent.

The National Prosecutor is independent of the Government, reports only to the Parliament. They also have a sub-department to investigate corruption cases when public servants are involved.

There is a body called the Defense Service of Law Enforcement Agencies. This institution is under the Ministry of Justice and Law enforcement. If a member of a law enforcement agency is involved in a corruption case, they investigate. Citizens can also turn to them.

Also there is the Customs and Finance Guard. They are not independent, it is structured under the Ministry of Finance. They also have investigative power on customs-related cases and organized crimes.

And there is the Anticorruption Coordination Board set up by the Government, with 18 members among them 6 ngos, it only has consultative power and role.

As you can see the picture is quite complex.

100 | 75 | **50** | 25 | 0

Comments:

Even the judgements follow written law the interpretation of the legislation might be very different, depending on the judges. It is not necessarily because of political influence, but mostly because there is no special organ supervising the uniform application of its laws.

YES: A YES score is earned if there is an objective system that is transparent to the public that equitably or randomly assigns cases to individual judges. The executive branch does not control this process.

NO: A NO score is earned if the case assignment system is non-transparent or subjective where judges themselves have influence over which cases they adjudicate. A NO score is also earned if the executive branch controls this process.

NO: A NO score is earned if there were any documented cases where a judge was killed because of his/her participation in a corruption trial. The relationship between a mysterious death and a judge's involvement in a case may not be clear, however the burden of proof here is low. If it is a reasonable assumption that a judge was killed in relation to his or her work on corruption issues, then the indicator is scored as a NO. Comments:

There is a general discrimination against the Roma population in Hungary which is reflected in the courts too. According to the study of the Helsinki Committee the ratio of discrimination is the same at the courts as in the general population. There was a recent case when a Roma musician was convicted even though when the crime was committed he was playing in front of 40 people in another town. The judge refused to listen to the witnesses. The judge's decision was later overturned on an appeal.

Comments:

The police are independent. However in major corruption cases investigations take a very long time and it is believed that during this time a lot of evidence can get lost.

References:

Szikinger: Law Enforcement Agencies In: Corruption Risks in Hungary, The National Integrity System Country Study, Part One, Transparency International, 2007.

100: The agency (or agencies) operates independently of the political process and has operational independence from the government. All laws can be enforced regardless of the status of suspects or the sensitivity of the investigation.

75:

50: The agency (or agencies) is typically independent, yet is sometimes influenced in its investigations or enforcement actions by negative or positive political incentives. This may include favorable or unfavorable public criticism by the government or other forms of influence. The agency (or agencies) may not be provided with some information needed to carry out its investigations.

25:

0: The investigative and enforcement work of the agency (or agencies) is commonly influenced by political actors or the government. These may include conflicting family relationships, professional partnerships, or other personal loyalties. Negative incentives may include threats, harassment or other abuses of power by the government.

84. Can law enforcement officials be held accountable for their actions?

75

84a. In law, there is an independent mechanism for citizens to complain about police action.

YES | NO

Comments:

The Independent Police Complaints Board was set up in 2007. Citizens can submit complaints about the Police. The Board investigates the case and suggests sanctions.
